-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments, see interview summary with respect to the advisory action filed on September 21st, 2005 have been fully considered and are persuasive. The advisory action has been withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9, 12, 15 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mehta et al. (US 5,843,109). Referring to claims 9, 12, 15 and 16, the applicant's specification does not establish any criticality on why the instrument is used for extraction of impacted third molars in the vicinity of the dental alveolus; for vertebral laminectomy treatment; for hand and foot bone surgery and therefore considers it a matter of design choice. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide an instrument that can be used for different situations, based on the teachings of Mehta (column 1 lines 59-67) "Hand-piece apparatus in accordance with the present invention useful for the disruption (ie, fragmentation, eroding, sloughing off and emulsification) and removal of unwanted material such as tissue, cartilage, bone calculi or the like from an animal body such as a human...". The usage of the instrument is based on patient criteria (ie, hand, foot, skull, etc...) and therefore is matter of design choice on where to use the instrument.
